

Get the IT infrastructure you didn't think was possible

As companies increasingly shift capital investments toward innovative financing options, lessors must adapt their IT infrastructure to purpose-built ecosystems that eliminate the operational and financial costs of legacy and makeshift frameworks.

Stay ahead of the competition in this growing market

Build the infrastructure you always thought should be possible – a total IT solution that:

- Eliminates inefficient workflows
- Avoids the need for custom dev tools
- Provides the agility and connectivity necessary for long-term success
- Overcomes insufficient reporting capabilities
- Reduces shadow IT and unauthorized workarounds
- Maximizes your software investment, streamlines deployment, and minimizes total cost of ownership

Get the system you need, with the execution you want

Large-scale software implementations can overwhelm IT staff, and bungled deployments counteract your ROI. **Maximize the benefits of a software transformation** by combining the market's best platform with the expert administration to roll it out effectively.

THE SYSTEM

What the Tietoevry ProFinance platform delivers:

Improved back-office functionality – Automating the entire origination process from application and scoring to decision-making and documentation.

Enhanced data management and analysis – Leverage your data for better decision making, risk management, customer service, and strategic planning.

Improved customer experience – Reduced friction in your CX to provide faster, more personalized, and higher-quality services.

Enhanced data management and analysis – Leverage your data for better decision making, risk management, customer service, and strategic planning.

THE EXECUTION

What K&B Global delivers:

Cost mitigation – Expert project management, resource assessments, and contract negotiations with affected vendors.

Optimized business design – Mapped deployment requirements to develop the most efficient implementation process and delivery.

Defined migration strategy – Optimal data and cloud programs that sync with your new, efficient workflows.

BPO Service – Identify the right support in the right locations for origination and administrative processes.

K&B+PROFINANCE:

A one-call solution for transformative IT

K&B Global is a trusted North American deployment partner of **Tietoevry ProFinance** because software this good deserves the right implementation and deployment. Talk to us about how this combination gives you the specialized infrastructure needed for growth.
